**AUTO WORLD® BRINGS A NEW COMPETITOR TO THE STARTING LINE  
NHRA® Top Fuel Dragsters Now In 1:64 Scale Slot Car Form!**

*For Immediate Release*

SOUTH BEND, Indiana – 11/2/11 – Auto World, a brand of Round 2, LLC, is proud to announce a new line of NHRA licensed Top Fuel Dragster slot cars, an innovation in the sport of slot car racing!

Slot car racing enthusiasts kept asking Auto World when we were going to do a dragster slot car. The wait is over! Auto World is thrilled to release its first four NHRA Top Fuel Dragsters in 1:64 scale. These new cars are 6 ¼” from the front to the rear wing, and are as detailed as the real thing, even including sponsor badging!

“We’ve included drag racing funny cars and pro stock slot cars in the Auto World lineup for several years now, and it only made sense to create a top fuel dragster version,” said Auto World Brand Manager Tony Karamitsos. “We worked hard with the NHRA teams to make these dragsters accurate and authentically detailed, right down to the team sponsors and badging.”

Auto World has invested in new tooling for this car, and it is believed to be the first time a slot car of this design has ever been done. “They look as cool as they are fast,” notes Karamitsos. “We’re excited to bring a new racer to the track, and are sure that fans will love racing it!” These cars are designed to run on a standard HO-scale slot track, no special equipment or gear is required.

These top fuel dragsters are based off Auto World’s 4Gear™ chassis and are equipped with the new larger rear dragster tires. A two pin system stabilizes the dragster on the track. The first release includes four of the most recognized top fuel dragster drivers in the NHRA: current champion Larry Dixon, Tony Schumacher, Brandon Bernstein and Spenser Massey.

Look for Auto World’s NHRA Top Fuel Dragster slot cars late this fall at your local hobby store or [Autoworldstore.com](http://Autoworldstore.com)!
